Data Centre of the Next Generation

About AsiaTone

Established in 1996 and headquartered in Hong Kong, Asia Tone Limited is one of the leading providers of colocation data centre service. We have been providing private colocation solutions since 2002.

Mission

To be the first choice of business partner of IT services operators seeking state-of-the-art data centre infrastructure.

Our presence in Asia

AsiaTone's data centres are located in Hong Kong, Shanghai, Suzhou and Singapore. The newly 100,000 sqft Hong Kong flagship data centre, AsiaTone i-Centre is now in operation.

AsiaTone i-Centre offers

Managed Colocation

At AsiaTone, customers have the benefits of owning their own data centre. Flexible managed colocation solutions such as lockable cabinets, secured cages and private suites are available.

Enterprise Hoisting

A comprehensive range of enterprise level hoisting services is available:

- Fully customizable data centre space
- 24/7 support service
- Flexible WAN solutions
- Large-scale data storage
- Backup service
- Tape storage

Reliable Bandwidth

Via AsiaTone you can connect your business to the world. Our connectivity solutions are scalable and reliable.

Carrier Neutral

AsiaTone supports multiple ISPs. You can choose your own carrier or we can recommend alternate carriers.

On-Demand Cloud Infrastructure

We have equipped our data centres with Cloud Computing, to provide true On Demand pay-as-you-go storage and server services to you.

Business continuity/ Disaster recovery

A remote dedicated/shared backup centre provides total back up solutions with business environments as well as IT and communication facilities.
